

BANKER

As Italy, you are the banker of the game. Keep track of the debts of other countries (and your own) by writing in this account book who owes debt, how much, and to whom the debt should be paid.

Remind your fellow countries that debts must be paid as soon as possible either with books of the same or greater value or with credits.

Countries who are owed credits can mandate that their debtor countries repay them by requesting either books or credits.

Third party countries may want to enter into business by offering debtor countries help by offering books or credits to them – at their own benefit.
